

A Project Report on

Grocery Delivery Application

By

Batch: 2020-6524

Under the Guidance of

Chittaranjan Ghosh.

Technical Trainer

EduBridge

(School of coding)

Introduction:

Our project explains about the Grocery Delivery Application Website name groceryshop. This project mainly explains the various actions related to shop online. You can search various products and shuffle according to category. Our Project Include

Modules:-

- Admin Module
- Customer Module

I have developed this Application in Java, JSP, Servlets, Hibernate and MySQL. It's a web-based projects so I have used HTML, CSS, JavaScript and Bootstrap also.

The main feature of the project is to make shopping easier. You can access this website from anywhere and everywhere.

In Admin module, admin can add the Category and Products in the specific category. He can also view the total number of users at present in the website. And category and product details also. Admin can only see the admin page and cart if he wants to order something.

In Customer module, customer can view the products from grocery shop and customer buy the various products in shop. In customer add the products from cart and then order the different items from shop.

Software Requirements:

Front end: Java/J2EE technologies (Servlet, JSP), HTML, CSS, JavaScript, Bootstrap, Hibernate.

Back end: MySQL workbench 8.0.23CE. Middleware/Server: Apache Tomcat v8.5. IDE: Spring Tool Suite4 Developers

Browser: Best result on Google Chrome

Operating System: Window 10

Customer Login page:

The screenshot shows a web browser window with the address bar displaying 'localhost:8080/customer-login'. A modal dialog box is open, showing a message from 'localhost:8080' stating 'login is successfull!!' with an 'OK' button. Below the dialog, the text 'Please login to continue' is displayed in a large, bold font. Underneath this, a smaller line of text reads: 'Please signup to buy grocery products online at an affordable cost at your doorstep.' The main content area is titled 'Customer Details' and contains two input fields: 'Email' with the value 'seshu@gmail.com' and 'Password' with masked characters '....'. At the bottom of the form is a blue 'Login' button. To the right of the button, there is a link: 'Don't have account? [Register](#) here.'

Shop Item - Start Bootstrap Temp. x +
